Matrix/Element are superior to any other platform. They are distributed so they cannot be shut down. They also do NOT require a cell phone number, or even an email address!

Quick FAQ:

- *What is Element?*
 - It's the app you use to chat. It connects to the Matrix servers. It is open source.
- *What is Matrix?*
 - Matrix is the protocol/language used to send and receive chat messages. It is P2P and encrypted. There is no central point of control like there is with Discord, Guilded, etc. That means it isn't as easy to shut down. It is open source.
- *Are there other apps besides Element?*
 - Yes, and you can use them to connect to the same Matrix chat servers, although Element is the most popular.
- *Where can I learn more about Matrix?*

- [Matrix FAQ](#)
- [Matrix Architecture](#) (scroll down)
- *Who else uses it?*
 - The Mozilla foundation migrated from IRC to Matrix ([link](#)).
- *The layout is awful...*
 - Try the IRC layout. Click on your name in the upper left corner, go to "all settings", then "appearance", then "advanced" then click , then "enable experimental compact irc mode"

TL;DR: 3000 pedes had there accounts permabanned from Discord for organizing. **Matrix is the new Discord.**

- Matrix is a P2P, distributed protocol that cannot be shut down like Discord, Guilded, etc.
- It does not require a phone number or email address
- It uses end-to-end encryption

Why the promotion of two other domains on the graphic? I see they've both only been registered for less than a month.

Did you create the domains as well?

No, you are completely in the right to question everything. Both of those domains were created after the election... in response to the voter fraud in an effort to distribute data analysis and organize Trump supporters for this election battle. The target audience is not just .win pedes but normies as well. More than welcome to take more questions if you've got them.

Isn't the server the cute young gal I tip after my early bird special?

Yea, and the other subreddit is like maybe I can hit that too.

It keeps disconnecting me. I'm sick of logging out and rejoining multiple times daily. The platform sucks.
